Rena-Chord

Rena-Chord is a homeopathic combination formula for symptoms related to toxic load of the kidneys. In their role of filtration and waste removal, the kidneys may become compromised by exposure to external factors such as heavy metals or viruses. The skin is sometimes referred to as the “third kidney”. Because of this relationship, skin symptoms are often a part of the kidney symptom picture.

Indications

For symptoms such as uncomfortable urination, lower back pain, occasional involuntary or diminished urination, itching skin eruptions, and dry, cracked skin.
