

# ARABINO GALACTAN POWDER

## This Unique Prebiotic Nourishes the Gut Microbiota While Promoting Immunity\*

- Powerful immune support supplement\*
- Builds the gut microbiota\*
- Increases butyrate levels for colon health\*
- Maintains intestinal regularity\*
- A good source of soluble fiber\*

Most of your immune system—70% of it—is located in the gut, so using a dietary supplement that does double duty for immune support and gut health makes a lot of sense.\* That's why DaVinci<sup>®</sup> Laboratories developed arabinogalactan powder from larch tree extract.\* Arabinogalactans are known for their ability to nourish the gut microbiota while encouraging a healthy immune response.\*

### Keeping Immune Cells Healthy\*

Arabinogalactans from larch tree extract help balance the immune response.\* They play a role in activation of immune cells in the gastrointestinal tract like natural killer cells and macrophages, powerful allies in immune defense.\* Arabinogalactans are two times more powerful than echinacea, one of the best known immune support supplements.\* A healthy immune system not only keeps you productive at work and home, it can also counter the effects of stress and pollutants, providing your body with a strong foundation for good health.\*

### Nourishing the Good Bacteria in Your Gut\*

Arabinogalactans act as a fermentable fiber, or a prebiotic, to promote growth of beneficial bacteria in the colon such as Lactobacillus and Bifidobacteria.\* These friendly bacteria are the guardians of your gut, keeping the colon healthy.\* Arabinogalactans are one of the very best prebiotics available because they can support the gut microbiome and immunity at the same time.\*

### Encouraging a Healthy Colon\*

As a source of soluble fiber, arabinogalactans promote comfortable and regular bowel movements and help avoid occasional diarrhea.\* Arabinogalactans boost production of short-chain fatty acids, especially butyrate, which is the main fuel for colon cells.\* Butyrate maintains colon health and strengthens the gut barrier. By doing so, it reduces the risk of intestinal permeability (or leaky gut), a condition that allows undigested food particles to escape into the bloodstream, which can set off immune imbalance throughout the body.\*

### Arabinogalactan Powder is recommended for:\*

- Weak immune defenses\*
- Low levels of beneficial gut microbiota\*
- Occasional constipation or diarrhea\*
- Colon health\*
- Intestinal barrier integrity\*
- Diets low in fruit, vegetables, or grains\*

**Suggested Use:** As a dietary supplement, mix 5 g (approximately 1 scoop) daily in 8 oz. of juice or water. Daily amount can be divided between AM and PM or as directed by your healthcare practitioner.

## Supplement Facts

Serving Size 1 (5 g) Scoop  
Servings Per Container 20
